

Daniel C. Hoffkins

TECHNICAL CUSTOMER EXPERIENCE & SUPPORT OPERATIONS LEADER

Redding, CT | (203) 496-7937 | daniel.hoffkins@gmail.com | linkedin.com/in/dan-hoffkins

PROFESSIONAL PROFILE

Customer experience and support operations leader with 15 years across SaaS, healthcare, diagnostics, and consumer technology. Combines team leadership with technical troubleshooting, implementations, and documentation. Manages three specialists supporting a nearly 100-person CX organization; previously led a 14-person team. Builds AI-assisted dashboards and documentation workflows that improve visibility and reduce manual work.

CORE EXPERTISE

Leadership & Operations: Coaching & Performance Management | Support Queues & Escalations | Implementations | Documentation & Training | Process Improvement | Capacity Planning | Vendor Management

Systems & Tools: Zendesk Architecture & Routing | REST APIs & Integrations | Claude & Claude Code | GitHub | Databricks & Spark SQL | Salesforce | Talkdesk | Looker | Tableau

PROFESSIONAL EXPERIENCE

Fi | Remote

Customer Success Operations Manager | Dec 2025 - Present

- Manage three direct reports across workforce management, support tooling, and quality assurance while building WFM, analytics, routing, and vendor infrastructure for a nearly 100-person internal and BPO CX organization; sustained 90%+ CSAT through 66% contact growth.
- Led an end-to-end WFM platform migration in six weeks with zero operational downtime, preserving 8.5 million historical records, automating scheduling, and introducing workstream-level forecasting.
- Built a centralized SQL-backed CX dashboard using Claude Code, combining CSAT, productivity, handle time, and service metrics to reduce weekly scorecard preparation from hours to minutes; added detailed metrics from the internal QA evaluation service.
- Used Claude APIs to generate Zendesk documentation and stored it in GitHub, establishing a repository of support-system reference material.
- Led a backlog recovery that reduced the queue by more than 50%, increased weekly solve volume by 56%, and improved solves per hour from 1.4 to 2.26.
- Raised technical-support CSAT from 85.7% to 96.8% in 30 days and achieved 92% of callbacks within 60 minutes through routing improvements, diagnostics automation, and service-level controls.
- Designed skill-based Zendesk routing and AI-assisted ticket classification; replaced redundant third-party tools with internal solutions, eliminating tens of thousands in annual tooling costs.

CertainlyCX | Remote

Head of Operations & Business Development (Fractional) | Dec 2024 - Dec 2025

- Built operating workflows, onboarding materials, QA playbooks, and CRM automation supporting outsourced CX delivery and new-account readiness.
- Partnered with leadership and client-facing teams on service design, implementation, and business-development opportunities valued at \$30,000-\$100,000.

Nayya Health | New York, NY

Director, Customer Operations | Jan 2023 - Dec 2023

- Led a 14-person blended internal and BPO organization covering onboarding, escalations, customer success, and support operations.
- Improved CSAT and NPS by 20% in two quarters through redesigned training, queue triage, coaching, and performance management.
- Reduced deployment time by 25% through standardized onboarding workflows and cross-functional operating processes.

PROFESSIONAL EXPERIENCE, CONTINUED

Virta Health | San Francisco, CA

Senior Manager, Customer Success Operations | Jul 2022 - Jan 2023

- Led customer-success operations across high-growth healthcare client segments, building Looker and Salesforce reporting for engagement, retention, and operational performance.
- Reduced manual troubleshooting by 10 hours per week through improved onboarding workflows, documentation, and automation.
- Developed training and data-driven intervention programs supporting at-risk accounts and customer retention.

Sema4 | Stamford, CT

Associate Director, Customer & Business Operations | Jun 2020 - May 2022

Manager, Client Services | Jul 2018 - Jun 2020

- Launched the oncology customer-support team and authored patient, provider, and sample-logistics policies with Legal, Compliance, and laboratory QA; trained support, laboratory, and field sales teams to establish consistent operating practices.
- Managed controlled documentation in SharePoint and MasterControl, including edit and approval histories, access to current approved policies, and archival of previous versions for historical review.
- Implemented Salesforce and Talkdesk omnichannel support, reducing response times by 50%.
- Led capacity planning and service readiness for more than 25 enterprise client launches; built QA programs and Tableau dashboards that reduced manual work by 25% and strengthened service consistency and audit readiness.

Flatiron Health | New York, NY

Director, Support & Customer Operations | Aug 2017 - May 2018

- Led 24/7 incident-response operations supporting oncology customers using EHR and clinical-research platforms.
- Improved team productivity by 10% and reduced urgent-ticket resolution time by 80% through redesigned procedures, escalation paths, and coverage models.
- Built team SOPs and performance dashboards that strengthened responsiveness, operating visibility, and internal coordination.

FactSet Research Systems | Norwalk, CT

Associate Director, Platform QA | Apr 2015 - Jul 2017

Systems Engineer, Technical Solutions | Apr 2011 - Apr 2015

- Progressed from Systems Engineer to Associate Director over six years, expanding ownership across technical solutions, platform quality, and release operations.
- Directed enterprise platform QA processes and coordinated technical and operational teams through mission-critical releases, system updates, and client integrations.
- Designed and implemented technical solutions for enterprise financial-data clients, improving platform performance and reliability.
