## CUSTOMER EXPERIENCE & SUPPORT OPERATIONS LEADER

Redding, CT | (203) 496-7937 | daniel.hoffkins@gmail.com | linkedin.com/in/dan-hoffkins

### EXECUTIVE PROFILE

Hands-on customer experience and operations leader with 15 years spanning healthtech, diagnostics, consumer technology, technical systems, and end-to-end operations. Led teams of up to 14 and built the workforce, analytics, AI, automation, vendor, and performance systems that allow customer organizations to scale. Turns fragmented workflows into practical systems that improve member experience, productivity, quality, and cost performance.

### CORE EXPERTISE

Operations: CX & Support Operations | Workforce Management & Capacity Planning | BPO & Vendor Management | Performance Analytics | QA & Coaching Systems | Budgeting & Cost Modeling | High-Touch Experience & Escalations | Process Design & Automation

Systems: Zendesk Architecture & Routing | AI & Workflow Automation | Databricks & Spark SQL | Salesforce | Talkdesk | Looker | Tableau | Cloudflare | HubSpot | Git

### PROFESSIONAL EXPERIENCE

- Fi**  
**Customer Success Operations Manager**

Remote  
Dec 2025 - Present

  - Built core operating infrastructure for a nearly 100-person CX organization spanning internal and BPO teams, including WFM, analytics, routing, QA program design, and vendor management, while sustaining 90%+ CSAT through 66% contact growth.
  - Led an end-to-end WFM platform migration in six weeks with zero operational downtime, preserving 8.5 million historical records, automating scheduling, and introducing workstream-level forecasting.
  - Built a centralized SQL-backed CX dashboard using Claude Code, bringing CSAT, productivity, handle time, and service metrics into one place and reducing weekly scorecard production from hours to approximately three minutes.
  - Led a backlog recovery that reduced the queue by more than 50%, increased weekly solve volume by 56%, and improved solves per hour from 1.4 to 2.26.
  - Raised technical-support CSAT from 85.7% to 96.8% in 30 days and achieved 92% of callbacks within 60 minutes through routing improvements, diagnostics automation, and service-level controls.
  - Managed more than \$1.6 million in annual BPO spend, recovered approximately \$30,000 in vendor credits, identified \$5,000+ in billing discrepancies, and modeled 15-20% projected annual savings.
  - Designed skill-based Zendesk routing and AI-assisted ticket classification while replacing redundant third-party tools with internal solutions, eliminating tens of thousands in annual tooling costs.
- CertainlyCX**  
**Head of Operations & Business Development (Fractional)**

Remote  
Dec 2024 - Dec 2025

  - Built operating workflows, onboarding materials, QA playbooks, and CRM automation supporting outsourced CX delivery and new-account readiness.
  - Partnered with leadership and client-facing teams on service design, implementation, and business-development opportunities valued at \$30,000-\$100,000.
- Nayya Health**  
**Director, Customer Operations**

New York, NY  
Jan 2023 - Dec 2023

  - Led a 14-person blended internal and BPO organization covering onboarding, escalations, customer success, and support operations.
  - Improved CSAT and NPS by 20% in two quarters through redesigned training, queue triage, coaching, and performance management.
  - Improved volume-forecasting accuracy by 30% through workforce reporting built in Salesforce and Zendesk.
  - Reduced deployment time by 25% through standardized onboarding workflows and cross-functional operating processes.

## PROFESSIONAL EXPERIENCE, CONTINUED

---

### **Virta Health**

San Francisco, CA

#### **Senior Manager, Customer Success Operations**

Jul 2022 - Jan 2023

- Led customer-success operations across high-growth healthcare client segments, building Looker and Salesforce reporting for engagement, retention, and operational performance.
- Reduced manual troubleshooting by 10 hours per week through improved onboarding workflows, documentation, and automation.
- Developed training and data-driven intervention programs supporting at-risk accounts and customer retention.

### **Sema4**

Stamford, CT

#### **Associate Director, Customer & Business Operations**

Jun 2020 - May 2022

#### **Manager, Client Services**

Jul 2018 - Jun 2020

- Promoted to Associate Director while leading internal and BPO teams supporting diagnostic and oncology clients, including high-touch workflows for complex, sensitive cases.
- Implemented Salesforce and Talkdesk omnichannel support, reducing response times by 50%.
- Led workforce capacity planning and service readiness for more than 25 enterprise client launches.
- Built SOPs, QA programs, and Tableau dashboards that reduced manual work by 25% and strengthened service consistency and audit readiness.

### **Flatiron Health**

New York, NY

#### **Director, Support & Customer Operations**

Aug 2017 - May 2018

- Improved team productivity by 10% and reduced urgent-ticket resolution time by 80% through redesigned procedures, escalation paths, and coverage models.
- Led 24/7 incident-response operations supporting oncology customers using EHR and clinical-research platforms.
- Built team SOPs and performance dashboards that strengthened responsiveness, operating visibility, and internal coordination.

### **FactSet Research Systems**

Norwalk, CT

#### **Associate Director, Platform QA**

Apr 2015 - Jul 2017

#### **Systems Engineer, Technical Solutions**

Apr 2011 - Apr 2015

- Progressed from Systems Engineer to Associate Director over six years, taking on expanded ownership across technical solutions, platform quality, and release operations.
- Directed enterprise platform QA processes and coordinated technical and operational teams through mission-critical releases, system updates, and client integrations.
- Designed and implemented technical solutions for enterprise financial-data clients, improving platform performance and reliability.
